3. The following is an examiner's statement of reasons for allowance:

Claims 1-13 and 24 are allowable . The prior art does not disclose a variable delay control circuit having an output providing the variable delay control input of the variable delay isolation buffer, the delay control circuit setting a delay control voltage potential at its output to control delay through the variable delay isolation buffer to substantially match delay through a time delay reference as recited in claims 1-2 and in combined with other claimed elements. Since claims 3-13 and 24 depend from allowable claims 1-2, therefore they are also allowed accordingly.
